TEMPERED & LEAK PROOF

TEMPERED

BUILT STRONGER
FOR EVERYDAY USE.

5× Stronger

Up to five times the strength of ordinary glass, drastically reducing breakage, replacement costs and operational waste.

Fully Tempered

Professionally heat-treated for industrial use resisting heavy handling and high-volume dishwashing while maintaining shape and clarity.

Thermal Safe

Engineered to withstand rapid temperature changes. Safe for hot drinks like tea, coffee or mulled wine without cracking or stress damage.

LAV HORECA

LEAK PROOF

FRESHNESS AND
SAFETY, ALWAYS.

Freshness

Preserves flavour and hygiene, minimizes both cross-contamination and food waste, while also reducing reliance on single-use plastics by providing more sustainable takeaway solutions.

Airtight

Precision seals lock in aroma and texture from prep to delivery, preventing air ingress and extending product integrity during storage and transport.

Leak-Proof

Engineered lids and robust glass bodies eliminate spills and product loss in high-volume service, cutting staff rework and reputational risk.

NUCLEATION

ENHANCED FLAVOUR
IN EVERY SIP.

Laser-Etched

Micro-etching inside the glass creates precise nucleation points that energize carbonation, delivering a steady stream of bubbles for a livelier, longer-lasting spin in sparkling drinks.

Enhanced Aroma

Continuous bubbles release the aroma compounds and boosts flavour appeal, improving perceived freshness and drink while ensuring repeatable presentation across every pour.

SALERNO

The Salerno glass, defined by precision. Its conical silhouette and sharp plane transitions create a disciplined, modern profile that stays consistent across every piece. The gently narrowing rim concentrates bouquet and channels aroma to the nose, heightening flavor without overwhelming the palate. On the table, it reads as intentional and exacting — an emblem of elevated service that pairs seamlessly with its stemless counterpart for cohesive programs across dining rooms, tastings, and events.

SALERNO

SALERNO

The same architectural clarity, minus the stem. This conical, sharp-lined bowl brings a confident, uniform character to casual-elegant service, with a tapered mouth that gathers aromas and enriches each sip. Use it alongside the Salerno Stemware to mix formal and relaxed presentations while preserving one design language. One family, two formats, modular, versatile, and visually unified for any menu or occasion.

MODERNA

TIMELESS ELEGANCE IN EVERY SIP

With its refined vertical lines and modern silhouette, the Moderna collection brings a contemporary touch to your table. The gently tapered bowl enhances the aroma and flavour, while the precise craftsmanship ensures a comfortable grip and a perfect balance for every occasion.

EFFORTLESS STYLE FOR EVERY OCCASION

A low-profile form that brings confident simplicity to casual-elegant service. Light plays through the vertical striations, while added surface area helps the wine open; the tapered mouth concentrates aroma for a cleaner finish. Conical geometry and crisp edges maintain the collection's architectural character. Mix with the stemmed goblet to vary presentation without breaking visual unity.

İSTANBUL

A quiet dialogue of lines. The tea glass features refined vertical striations that catch light and guide aroma, while the square saucer's horizontal and vertical engraving echoes the İstanbul family code for a crisp, architectural set. Together they deliver visual harmony and professional function: a stable footprint, clean presentation, and a design story that links every serve back to the city that inspired it. Formal or casual, the identity stays consistent across the program.

BONN

Two tumblers share a single rim diameter, nest securely to save space, and shift effortlessly between beverage and snack service. For repeatable precision, the design pairs a familiar, nostalgic silhouette with a clean, modern stance. Distinct polygonal bases, each cut with a different number of facets, create a subtle light play as reflections move through the glass, giving every serve its own signature. The result is a compact, versatile duo that balances form and function while keeping operations streamlined.

MODERN TEXTURE

TIMELESS SERVICE

A single rim diameter, three heights, built to flex from short serves to tall pours without breaking the visual code. Each piece carries a geometric relief that adds depth, catches light, and lends confident handfeel; the patterns shift subtly across the set to keep the family unified yet distinct. Designed to stack compactly, the trio saves precious shelf space and speeds resets in tight back-of-house footprints. Modern in stance, tactile in use, and versatile across beverages and small plates, this textured glass series offers a refined alternative for everyday service; consistent, space-smart, ready for hospitality at scale.

TIMELESS ELEGANCE

Sardinia draws its line from a single, confident curve, a broad coupe that feels architectural, not ornamental. The bowl opens like a small stage, the stem stays fine for a clean sip. In bright service light, its clarity shows color and foam with intent, nothing distracts, everything frames the drink.

ARCHIE

POUR

by

INTENT

DIFFERENT GLASSES.

A RICHER EXPERIENCE.

The right glass enhances aroma, directs flavor, and elevates every moment at the table. From bold reds to delicate whites and rosés, discover how form and function come together to turn a simple pour into something special.

GLASSWARE

THAT BRINGS

PEOPLE

TOGETHER

Red Wine:

Space to Breathe

Reds show best with surface area and controlled convergence at the rim. Archie, Sardinia, and Lyon feature larger bowls with a softly narrowed mouth, giving tannic wines room to open while channeling complex aromas toward the guest. The wider base stabilizes a confident swirl; the silhouette signals premium service before the first sip.

White Wine:

Crisp, On Point

Whites reward precision, a slightly narrower rim to focus fruit and mineral, plus a bowl that doesn't overexpose the wine. Colmar, Vienna and Paris are engineered for that task: fine rims for a clean sip point, bowl geometry that highlights citrus and floral lift, and brilliant transparency that keeps the presentation razor-sharp at table and pass.

Rosé: Space to Breathe

Rosé thrives on delicate aromatics and a clean finish. Shapes with a gentle taper and fine rim keep the nose focused while protecting freshness. LAV HORECA Colmar, Sardinia and Venice deliver that balance: medium bowls for a light swirl, narrowed mouths to lift strawberry and floral notes, ensuring every pour retains its elegance.

ASPEN

VERSATILE SHAPES
